ACS NATIONAL LUNG
CANCER ROUNDTABLE

ANNUAL MEETING

DECEMBER 8-9
GRAND HYATT BUCKHEAD
ATLANTA, GA

WELCOME MESSAGE

Welcome to our 9th Annual Meeting! We are delighted to have you join us as we come together to advance our shared mission, to create more lung cancer survivors, and to focus on this year's meeting theme: **Accelerating and Communicating Progress in Lung Cancer**.

As our roundtable membership has grown, so has our capacity to drive meaningful change across the lung cancer continuum. From early detection and biomarker testing, to multidisciplinary treatment and survivorship, to state-based initiatives and public health communication, the work represented across our roundtable membership and Task Groups continues to push the field forward. Yet progress is only as powerful as our ability to communicate it clearly, compassionately, and consistently, and that is why this year's meeting program emphasizes that what we discover, build, and improve is not just scientifically innovative, but ultimately affects those communities who need it most.

Over the next couple days together, we will explore how best to accelerate adoption of evidence-based strategies across the lung cancer continuum. Through keynotes centered on survivorship and patient-centered communication and panel presentations addressing real-life policy and practice challenges, to hands-on concurrent sessions focused on screening programs and multidisciplinary care, we hope we have prepared an agenda that is both comprehensive in scope and meaningful in impact. We are also excited to highlight updates on several ACS NLCRT initiatives as well as timely program updates from member organizations. These sessions reflect our continued commitment to grounding our work in evidence, collaboration, and the lived experiences of individuals affected by lung cancer and their families.

Thank you for being here in Atlanta and for the dedication you bring to this work every day. Our progress would not be possible without the leadership and partnership of our Steering Committee members, Task Group Chairs/Vice Chairs and volunteers, our membership, or our passionate patient advocates. A special shout out to the Annual Meeting Planning Committee for their thoughtful planning of our 9th Annual Meeting. We are deeply grateful to our sponsors, whose support strengthens our ability to convene, innovate, and accelerate change.

Together, let us chart a path forward that is faster, clearer, and more determined than ever, so we can continue to improve the lives of individuals at risk for, living with, or surviving lung cancer.

With Gratitude,

**Ella A. Kazerooni, MD,
MS, FACR, FACC, FSABI**
ACS NLCRT Chair

**Douglas E. Wood, MD,
FACS, FRCSEd**

About the ACS National Lung Cancer Roundtable

The American Cancer Society National Lung Cancer Roundtable (ACS NLCRT) was established in 2017. The ACS NLCRT is a national coalition of member organizations dedicated to creating lung cancer survivors. The roundtable fosters sustained partnerships across diverse sectors and communities to tackle both long-standing and emerging issues in lung cancer.

→ Priorities

- Accelerate implementation, uptake of, and adherence to early detection of lung cancer.
- Improve guideline-concordant lung cancer staging and optimize the use of biomarkers in practice.
- Promote initiatives to eliminate lung cancer-related stigma and nihilism.
- Support and strengthen state and local initiatives.
- Reduce disparities and advance health equity in lung cancer care and control.

→ Health Equity Statement

ACS believes that all people should have a fair and just opportunity to prevent, find, treat, and survive lung cancer, regardless of income, skin color, sexual orientation, gender identity, disability status, or zip code.
